## Secretary of Defense approves Joint Meritorious Unit Award

The Secretary of Defense has approved the award of the Joint Meritorious Unit Award to the National Security Agency/Central Security Service for exceptionally meritorious service for the period June 1, 1991 to June 1, 1995.

The U.S. Armed Forces cryptological organizations, part of the CSS, consists of components from sister services to include the Air Intelligence Agency.

The JMUA is therefore authorized to all military and civilian members assigned to AIA units that directly supported NSA during the award period.

Members must have been permanently assigned or attached by official orders to the units during the time specified and directly participated in the service or achievement.

## Air Force Chief of Staff nominates 488th IS for 1996 Killian Award

The 488th Intelligence Squadron was recently nominated for the President's Foreign Intelligence Advisory Board's 1996 Killian Award by the Chief of Staff of the Air Force. Eleven nominees were submitted for the 1996 award, seven individuals and three organizations besides the 488th.

The Killian Award was initiated by the late Les Aspin, the tenth PFIAB chairman, and named in honor Dr. James R. Killian, the first PFIAB chairman. The commendation is sponsored by the PFIAB to recognize outstanding performance in areas especially critical by U.S. intelligence professionals.

The 488th was nominated for outstanding performance during several operations which included Joint Endeavor and Southern Watch.

Despite not being the final selectee, the PFIAB believed the 488th IS's exceptional support of the intelligence needs and concerns of the Defense Department and other U.S. government agencies merited special recognition and bestowed a letter stating such to the unit.

The letter, signed by Thomas S. Foley, chairman of the PFIAB, expressed that the 488th's service to Dr. Sheila Widnall, Gen. Ronald Fogleman, the U.S. Air Force and other senior Defense Department officials exemplifies the kind of relationship between intelligence producers and consumers that is crucial to the national security of the U.S. and that the unit has distinguished itself and been identified as among the intelligence community's best and brightest professionals, setting the standard for excellence in the field.

## NAIC Team wins intelligence award

*by Rob Young  
NAIC Historian*

*Wright-Patterson Air Force Base, Ohio*

A team of National Air Intelligence Center and Air Force Materiel Command personnel received the National Intelligence Meritorious Unit Citation from George Tenet, director of Central Intelligence. Col. Kenneth Dumm, NAIC commander, accepted the award on behalf of the CORAL MAT Combined Exploitation Force and Management Team.

The award recognizes the team's outstanding efforts during an engineering evaluation and data analysis it performed on the Department of Defense's top priority threat aircraft. In a four-month period, the nearly 200-member CORAL MAT team successfully completed an evaluation that would normally take two years to accomplish.

"Success of the teaming process has set a new standard and will be pioneered by the CORAL MAT team," said Dumm. "It is now the model for all future exploitation efforts."

## 488th brings home national citation

The 488th Intelligence Squadron at Royal Air Force Mildenhall, England, was recently selected to receive a national award for continued excellence. The unit received the National Intelligence Meritorious Unit Citation, which was presented by a former Central Intelligence Agency director.

The citation was based on the intelligence squadron's sustained excellent performance over a three-year period, beginning June 1993.

The 488th IS provides information to U. S. forces to enhance aircrew situational awareness and provide threat warning information to aircrews and ground forces.

## 315th earns Commander's Trophy

Members from the 315th Intelligence Squadron and Department of Defense Special Representative Japan joined together to bring home the 1996 Commander's Trophy for Small Units at Yokota Air Base, Japan.

This award is presented to the unit with less than 125 military members that achieved first place overall in the intramural sports program at Yokota Air Base. Points are awarded for participating and final ranking in each sport. Even with less than 80 members, the unit showed that with dedication and teamwork, it can compete with the larger units on base.
